Overview

This document reviews the steps on how to submit and approve a Retirement Employment Action through the OPEN tab on the SAP Portal. The objective is for the user to access the Employee Request tile, navigate the Dashboard, initiate or approve an Employment Action and view Reports.

The Employment Action is an electronic action designed to be submitted by a manager or designee. Based on structural authorization the approver(s) reject or approve the action. After the approval process is completed the action is entered into SAP. The Employment Action follows an automated workflow to transport the action to the departmental or enterprise approvers.

Questions about Employment Actions can be answered on the HR Shared Services website https://ssc.jhmi.edu or by calling HRSS directly at 443-997-5828.

Adding an Employment Action

Once an Employment Action has been successfully submitted it flows through the appropriate approval(s) based on structural authorization. Approvers can approve, reject, edit or delete an action. Depending on established workflow for your area, there may be one or two approvers required for your action. Actions are loaded directly into SAP after an action has been successfully approved by the required approvals

1. The “Approvals” tab presents action(s) that have been submitted and are awaiting approval. The circle next to the tab indicates the number of actions that need attention. If the circle is grey with a “0” it means no action(s) are pending. Users who have authorization to approve and initiate have both the “Employee Changes” and “Approvals” tab.
2. Click on a row to select and open an action
